

**2004 Colorado Wind and Distributed Energy:
Renewables for Rural Prosperity Planning Group Announces
Call for Poster and Exhibit Presentations**

February 5, 2004

Dear Renewable Energy Supporter:

The CWADE Planning Committee would like to invite you the opportunity to display a poster presentation or to be an exhibitor during the 2004 CWADE conference. We have room for approximately 45 poster presentation / exhibitor spaces and we will allocate space for accepted poster presentations or exhibitors. These displays will be viewed by attendees during the conference and will provide you a forum to discuss the service, process or product offered by your company.

We request a brief synopsis / abstract (along with any accompanying pictures, etc.) of your poster or exhibit be submitted to the CWADE Planning Group no later than March 12, 2004. Each will be judged for its relevancy to the conference and if selected, assigned a booth location. (See Recommended Sponsorship Levels for Poster/Exhibit pricing: http://www.state.co.us/oemc/events/cwade/2004/sponsor_opportunities.pdf)

The Colorado Governor's Office of Energy Management and Conservation (OEMC) and the U.S. Department of Energy's Wind Powering America program are partnering to host the 2004 Colorado Wind and Distributed Energy (CWADE) conference. U.S. Secretary of Energy Spencer Abraham, Colorado Governor Bill Owens, and the Mayor of Colorado Springs, Lionel Rivera have been invited to speak.

This year's CWADE conference will be held April 13 and 14, at the Doubletree Hotel-World Arena in Colorado Springs. At the first conference, in 2002, there were over 350 attendees and we expect that number to increase, just as interest in wind and distributed energy has grown. The conference will show attendees how energy self-sufficiency can enrich Colorado's rural and business communities as well as strengthen our national security.

Please direct any inquiries to Megan Castle and thank you for your consideration.

Sincerely,
Megan Castle
